BETTER SCHOOLS PROGRAM -- \$57.5 MILLION GENERAL FUND-STATE

Better School Program Funds are intended to be ongoing in future biennia and are provided for two purposes as follows.

\$37.4 million is provided for class size/extended learning opportunities starting with the 2000-01 school year. The funds are allocated through an additional 2.2 certificated instructional staff per 1000 full-time equivalent students in grades K-4. The funds may be used to provide additional teachers in grades K-4 or to provide programs before-and-after school, weekend school, summer school, and during intercessions.

\$20.1 million is provided for professional development for certificated and classified staff to ensure that instruction is aligned with state standards and student needs. The funds are allocated starting July 1, 2000 at a rate of \$20.04 per student. The expenditure of the funds will be determined at each school site by the school staff.

COMMON SCHOOL CONSTRUCTION -- \$35.0 MILLION EDUCATION CONSTRUCTION FUND, \$6.6 MILLION EDUCATION SAVINGS ACCOUNT

\$6.6 million in additional education savings account revenues are appropriated to help fund the \$56.7 million K-12 capital supplemental budget. In addition, separate legislation changes the calculation of the 5 percent emergency reserve requirement from a biennial amount to an annual amount. This change will produce an estimated \$138 million for the Education Construction Fund. These moneys may be used for K-12 or higher education construction. A total of \$35 million is appropriated from the Education Construction Fund to the common school construction account.

SCHOOL SAFETY -- \$5.6 MILLION GENERAL FUND-STATE

The 1999 legislature appropriated \$8.7 million for competitive matching grants to school districts for school security personnel. The supplemental budget provides an additional \$5.6 million to be allocated to all school districts at \$10 per student. The funds may be expended by school districts for school safety purposes including equipment, training of school staff, and minor remodeling of buildings. Adjustments are made for school districts that received safety planning and school security grants.

SUBSTITUTE TEACHER PAY -- \$4.6 MILLION GENERAL FUND-STATE

To help address substitute teacher shortages, funds are provided to increase the rate of substitute teacher pay from \$77.51 to \$98.87 per day starting in the 2000-01 school year. Allocations for 5 substitute teacher days per teacher are a component of the state's basic education definition for apportionment and special education.

ENROLLMENT DECLINE TRANSITION -- \$3.9 MILLION GENERAL FUND-STATE

A number of school districts throughout the state have experienced unanticipated enrollment declines. To assist these school districts, enrollment decline transition funds are provided for the 1999-2000 school year. A district is eligible for the funds if it has an enrollment decline of 300 or more full-time equivalent students or 4.5 percent or more of its enrollment when compared to the prior school year. Eligible districts will receive funding for 50 percent of the enrollment decline at the basic education unenhanced rate of the district.

HEALTH BENEFIT RATE ADJUSTMENTS -- \$1.8 MILLION GENERAL FUND-STATE

Funding is provided for an expected increase in health benefit insurance rates for school year 2000-01 increasing the monthly rate per K-12 employee by \$1.82 per month. In addition, the rate is increased by \$0.48 per month for insurance market reform costs and by \$0.02 per month for expanded prescription drug benefit coverage. The total increase is \$2.32 per month.

INFORMATION TECHNOLOGY WORKFORCE TRAINING -- \$800,000 GENERAL FUND-STATE

The 1999-01 biennial budget provided \$1 million per year for information technology grants for programs that prepare high school students for careers in the information technology industry. Funding is increased by 80 percent in the second year of the biennium to allow more high schools to participate in the grant program.

PRINCIPAL INTERNSHIP & MENTORSHIP PROGRAMS -- \$735,000 GENERAL FUND-STATE

The 1999-01 budget provided \$1,598,000 for the superintendent/principal internship program. This program funds the cost of release time for teachers and other individuals enrolled in a principal or administrator preparation program so that the individuals may engage in an internship during the school day when children are present. An additional \$610,000 is provided to increase the number of participants in the program. In addition, \$125,000 is provided to create a principal support program to pair new principals with an experienced mentor for up to 3 years.

INTERNET FILTERING SERVERS -- \$431,000 GENERAL FUND-STATE

As access to the Internet increases, schools are making efforts to protect students from adult material that is readily available through this medium. Funds to purchase a filtering server are made available for districts that currently do not have a filtering system in place.

TEACHER PROFESSIONAL STANDARDS BOARD -- \$431,000 GENERAL FUND-STATE

HEALTH INSURANCE

EMPLOYEE HEALTH BENEFITS -- \$4.9 MILLION GENERAL FUND-STATE, \$2.9 MILLION OTHER FUNDS

Additional funding is provided to increase the employer contribution rate for state employee health benefits. The Health Care Authority is projecting a deficit in the Public Employees and Retirees Insurance Account of over \$16 million at the end of the biennium. Because of this additional funding, no reductions in nursing home payment rates are expected to be necessary. The budget also provides additional funds so that all nursing homes will receive a full 2% vendor rate increase in the second year of the biennium. For this reason, the budget provides \$612,000 in additional funding to construct, expand and improve local jails and other correctional facilities. Three counties with existing drug courts will exhaust federal resources this fiscal year. These drug courts will receive state assistance equal to one half of their net federal funding loss from fiscal year 2000 to fiscal year 2001. The balance in drug court funding will come from savings at the local level.

The study, which will include any recommended changes, must be completed no later than December 1, 2001. Additionally, funding is provided for the Office of the Administrator for the Courts to convene a task force to review whether there are revisions to existing statutes and court rules which, if implemented, would decrease the likelihood of an inappropriate imposition of the death penalty.

This may result in further restrictions on fishing and land use activities. The budget provides funding for science-based monitoring and fishery management to restore these fish stocks.

WATER STORAGE -- \$150,000 GENERAL FUND-STATE, \$675,000 OTHER FUNDS

Funding is provided for a water storage task force and for feasibility studies of water storage projects in Pine Hollow and Washout Canyon.

SUMMARY OF GOVERNOR'S VETOES

Study of Bilingual Education (Joint Legislative Audit and Review Committee): Section 103 (2)

This section directed the Joint Legislative Audit and Review Committee to study bilingual education programs. The study would have had two parts: the Office of the Superintendent of Public Instruction was to provide a follow up report on implementation of recommendations contained in the 1992 Legislative Budget committee study of bilingual education and the JLARC was to review funding allocation methods for transitional bilingual programs.

Puget Sound Action Team (Office of the Governor): Section 109, lines 29-30 and 109 (1)
Appropriations and provisoed amounts for the Puget Sound Action Team are restored to original budgeted levels.

Department of Personnel: Section 118 (8)
Section 118(8) would have required the Department of Personnel to prepare a plan for providing space in one of its office buildings for the Citizens' Commission on Salaries for Elected Officials.

Retiree Return-to-Work Rules (Department of Retirement Systems): Section 119(11)
Section 119 (11) would have required the Department of Retirement Systems, within existing resources, to implement changes to the rules governing post-retirement employment in order to track these activities on an hourly rather than monthly basis.

Liquor Agencies Advisory Committee (Liquor Control Board): Section 124(6)
Section 124(6) would have created a Liquor Agencies Advisory Committee to facilitate communications between the liquor agencies and the Liquor Control Board (LCB) and to evaluate the LCB's liquor agencies' fees and commissions.

Contracts with Community Organizations (Employment Security Department): Section 222(4)
Section 222 (4) would have required the Employment Security Department to provide \$5 million through contracts with community-based organizations for family development or similar services.

Sections 304, Page 119, lines 33 and 34; and 304(4) and 304(5), Page 120, Conservation Commission Activities: Section 304, lines 33 and 34, 304(4) and 304(5)

Increases appropriations from the General Fund by \$33,000. This is the net result of eliminating a reduction to the Conservation Reserve Enhancement Program and eliminating new funding for the Agriculture, Fish and Water negotiation process.

Aquatic Lands Enhancement Account Reduction (Department of Natural Resources): Sections 306, lines 7 and 8, and 306(1) Increases appropriations from the Aquatic Lands Enhancement Account (ALEA) by \$300,000 in the operating budget. Restores original budget proviso language regarding amounts provided from ALEA for the Puget Sound work plan.

Independent Staff for the Board of Natural Resources (Department of Natural Resources): Section 306(14) Deletes a proviso which does two things: earmarks existing funding solely for agency administration and provides new funding for additional positions to independently staff the Board of Natural Resources.

Capital Budget, Alternative Financing Contracts: Section 1045, lines 21 through 36 This section created an interim legislative workgroup to develop a policy for the use of alternative financing contracts and required a standardized process for state agencies requesting future financing contracts.

Summary of the 2000 Capital Budget (EHB 2487) & Legislation

2000 Supplemental Capital Budget Overview

The 2000 supplemental Capital Budget was included in the same bill as the supplemental Operating Budget - Chapter 1, Laws of 2000, partial veto, 2nd special session (EHB 2487). The supplemental Capital Budget was constrained by concerns over the statutory 7% debt limit. The 1999-01 Capital Budget reserved a small amount (\$15 million) of bond authority in anticipation of emergent supplemental needs, but rising interest rates increased the cost of debt on planned bond sales to the extent the reserved bond authority was no longer available. Where bonded appropriations were made in the supplemental Capital Budget, there is a corresponding reduction in previously authorized projects. The overall adjustments in the supplemental budget reduced the bonded portion of the biennial budget by \$150,000 and increased the non-bonded portion by \$115.6 million. The non-bonded appropriations are financed by federal funds, trust timber revenues and state operating funds.

K-12 CONSTRUCTION -- \$56.8 MILLION VARIOUS SOURCES

The supplemental capital budget provides \$56.8 million to address the updated estimate of K-12 construction demands in the current biennium. Revenue for the appropriation is derived from the updated DNR revenue forecast and other revised revenue forecasts from the state treasurer and the state investment board.

Legislation changes the calculation of the 5 percent emergency reserve requirement from a biennial amount to an annual amount. This change will produce an estimated \$138 million for the Education Construction Fund in the 1999-01 biennium. These moneys may be used for K-12 or higher education construction. A total of \$35 million is appropriated from the Education Construction Fund to the common school construction account.

NEW SPECIAL COMMITMENT CENTER FACILITY -- \$14 MILLION VIOLENCE REDUCTION AND DRUG ENFORCEMENT ACCOUNT

Funding is provided to begin construction of a new Special Commitment Center facility on McNeil Island. The facility will provide custody and treatment for persons who have been committed under the state's sexually violent predator statute. The facility will be designed to achieve the custody and treatment conditions required by a federal court injunction governing implementation of the state civil commitment statute. Funding is also provided to begin site selection for the community pre-release facilities envisioned under the injunction.

LOCAL CRIMINAL JUSTICE FACILITIES -- \$612,000 GENERAL FUND-FEDERAL

The state's award from the federal Violent Offender Incarceration and Truth-in-Sentencing (VOI/TIS) grant is higher than anticipated in the original budget. For this reason, the budget provides \$612,000 in additional funding to construct, expand and improve local jails and other correctional facilities. This brings the

total VOI/TIS amount provided to local governments during the 1999-01 biennium to \$4.1 million.

SMALL TIMBER LANDOWNERS -- \$2.5 MILLION STATE BUILDING CONSTRUCTION ACCOUNT

Funding is provided to purchase riparian easements from small timber landowners to mitigate the economic impact of revised forest practice rules. The use of bond proceeds for this item is offset by a delay in the use of bonded appropriations for the Conservation Reserve Enhancement Program.

DAIRY NUTRIENT MANAGEMENT GRANTS -- \$2.5 MILLION STATE BUILDING CONSTRUCTION ACCOUNT

The 1998 Dairy Nutrient Management Act required all dairy operators to implement certified nutrient management plans by December of 2003. Additional funds are provided to the Conservation Commission for grants to dairy operators to implement dairy nutrient management plans. The use of bond proceeds for this item is offset by a delay in the use of bonded appropriations for the Conservation Reserve Enhancement Program.

LEGISLATIVE BUILDING RENOVATIONS -- \$3 MILLION CAPITOL BUILDING CONSTRUCTION ACCOUNT

Funding is provided to continue design and planning for the renovation of the State Capitol Building.

SEATTLE CRIME LAB/STATE TOXICOLOGY LABORATORY CONSOLIDATION -- \$2.5 MILLION DEATH INVESTIGATIONS ACCOUNT

The budget provides \$2.5 million to integrate the State Crime Lab and State Toxicology Lab into a consolidated facility and to make needed tenant improvements at the same time. \$10 million was provided in the original 1999-01 budget for the State Patrol's Seattle Crime Laboratory to be constructed within a City of Seattle owned building. The State Toxicology Laboratory, which merged with the State Patrol crime laboratory in July of 1999, currently occupies space in the same building.

WASHINGTON WILDLIFE AND RECREATION PROGRAM (WWRP)

The 1999-01 biennial capital budget included \$48 million in state bonds for WWRP projects, and approved a list of first-year projects. The 2000 capital budget provides approval of the second-year list of local park projects totaling \$2.2 million.

HOLLY PARK EDUCATION CENTER -- \$500,000 STATE BOND FUNDS

Funds are provided as a grant to South Seattle Community College for education space in the Holly Park housing development. Funds must be matched by an equal amount from other sources.

COMMUNITY SERVICES FACILITY PROGRAM -- \$953,000 GENERAL FUND-STATE

Funds are deposited into the State Building Construction Account for facility grants to community service organizations. In making the grants the department will adhere to the advisory board recommendations and prioritization. These funds are in addition to the currently authorized program of \$4 million. An additional five projects that serve children and families will receive this new support, including: Hopelink in Bellevue, \$150,000; the Metropolitan Development Council in Tacoma, \$300,000; Children Northwest in Vancouver, \$300,000; Community Action Council, in Lewis, Mason, and Thurston Counties, \$75,000; and Friends of Youth in Duvall, \$128,000.

CLARK COUNTY SKILLS CENTER -- \$350,000 GENERAL FUND-STATE

A matching grant is provided to the Clark County Skills Center to secure private donations for a new facility.

UNIVERSITY OF WASHINGTON CLASSROOM RENOVATION -- \$16 MILLION UW BUILDING ACCOUNT

Funding is provided for classroom renovations and routine minor building remodeling projects on the University of Washington campus.

CHENEY HALL RENOVATION -- \$300,000 EWU CAPITAL PROJECTS ACCOUNT-STATE

Funding is provided so Eastern Washington University may begin the design development process to renovate Cheney Hall in order to expand its present capacity to deliver high technology educational programs.
